# LOCATIONS OF GAGING STATIONS AND 7-DAY $Q_{10}$ DISCHARGES IN MISSOURI

SCALE
0 40 miles
0 50 km

EXPLANATION

- ▲ Continuous-record stream-flow station
- △ Partial-record stream-flow station
- ● Continuous-record spring-flow station
- ○ Partial-record spring-flow station
- 300/25 Upper number is that used in text tables to locate stations in downstream order; lower number is 7-day $Q_{10}$, in cubic feet per second.
- ? Indicates estimate of 7-day $Q_{10}$ is not available.

Note:
A line through the symbol (▲) indicates that low flows are regulated or continuously affected by man's activities. See footnotes in table 1 for further explanation.
